Subject: [External_Sender] Lost Creek SUA-1598 - Request for Extension on SAEEMR

John,

We respectfully request an extension of the due date for the Semi-Annual Effluent and Environmental Monitoring Report for the Lost Creek Project. It is anticipated that the environmental air sample data will not be available before the due date of the report. Factoring in the submittal date and consultation with the Lab on turn-around-times, we expect the data for the air filters to be available very close to or after the due date.

The due date is August 29th and we request a two week extension (September 12) so we can provide the complete set of data for the air monitoring.

Regards,

Michael Gaither
