RE: Reply to letter dated April 20, 2017 on Training Content requirements of the Confirmatory Order EA-14-080

Dear Mr. Daniel S. Collins,

This is in response to your letter dated April 20, 2017 regarding the training content of the Confirmatory Order EA-14-080. In our letter dated August 30, 2016 the training that CampCo key employees received by a third party independent consultant, Sean C. Chapel on August 11, 2016 was for CampCo Actions #6 of the Confirmatory Order. During the training CampCo employees discussed NRC requirements, general awareness to emphasize and reinforce NRC, Agreement State Compliance and General Radiation Safety Training which was for CampCo Actions #6B and #6C of the Confirmatory Order. The material that was submitted August 30, 2016 included the General Radiation Safety Training material however the other topics discussed had no printed material available.

We understand that the training content should have been submitted as a draft to the NRC for review and approval prior to training. That is why it was stated in our letter dated August 30, 2016 that, " If the NRC requires CampCo make any revisions to the training content we will immediately incorporate and resubmit the updated version. Once the NRC has approved, and if required CampCo will have the key employees retake the NRC approved training."

During our inspection on May 11, 2017 with Jason Dykert and Shirley Xu the requirements for the training material were discussed and explained in more detail. As a result we were able to make the required adjustments working with our third party independent consultant Sean C. Chapel of International Radiation Safety Consulting, Inc (IRSC).

Enclosed please find the revised training material, Attachment A for your review and approval. The material addresses NRC regulations for exempt distribution licenses, specific requirements and obligations associated with NRC license and any applicable CampCo procedures. If the NRC requires CampCo to make any revisions to the training content we will immediately incorporate

and resubmit the updated version within 15 calendar days of receipt. Once the NRC has approved the training content, within 90 calendar days of the approval CampCo will complete the training for key employees.

If you have any questions please call me at 323.766.2555 or email me at motti@campco.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Motti Slodowitz', written in a cursive style.
