SUBJECT: LICENSE AMENDMENT REQUEST TO CHANGE LICENSE BASIS
DOCUMENTS AND MATERIALS LICENSE FOR AN EXEMPTION
TO REMOVE THE REQUIREMENT FOR A CRITICALITY ACCIDENT ALARM
SYSTEM IN PRODUCT OUTDOOR CYLINDER STORAGE AREAS
(LAR-17-02)

Dear Mr. Padgett:

By letter dated July 11, 2017, Agencywide Documents Access and Management System (ADAMS) Accession Number ML17200C951, Louisiana Energy Services d.b.a. URENCO USA requested the U.S. Nuclear Regulatory Commission (NRC) staff to review and approve a change to the requirement for Criticality Accident Alarms in the outdoor cylinder storage areas.

Based on our initial review of the application we have found that the submittal contains enough detail to begin our review. However, we have also found that we require additional information to assist us in completion of the review. The request for additional information (RAI) is detailed within the Enclosure. To be timely in our consideration of your request, we require that you provide a detailed response to this RAI as soon as possible, but no later than 30 days from the date of this letter. A Cost Activity Code (CAC) has been opened for this review (CAC L33440). Please reference it within any future correspondence associated with this request.

Due to the proprietary nature of this request and in accordance with Title 10 of the *Code of Federal Regulations* Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of the enclosure to this letter will not be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. However, this cover letter will be made publicly available. ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html> (the Public Document Room).

Document transmitted contains **Security-Related Information**. When separated from the Enclosure.
