Gentlemen:

Re: St. Lucie Unit Nos. 1 and 2
Docket Nos. 50-335 and 50-389
TMI Action Item II.D.1
Request for Additional Information

By letter dated June 10, 1987 (E. G. Tourigny to C. O. Woody), the NRC identified additional information the staff required to continue its review of TMI Item II.D.1 of NUREG - 0737, "Performance Testing of Relief and Safety Valves". Florida Power & Light Company (FPL) and the NRC staff held a conference call on this request for additional information on August 4, 1987, to clarify certain questions and discuss FPL's proposed schedule for response.

As a result of this telephone conference, FPL will respond to this request for additional information on the following schedule:

St. Lucie Unit 1 questions 1., 2.A., 2.B., 4.A. and 5.; and St. Lucie Unit 2 questions 1.A., 1.B., 2.A., 2.B.1., 2.B.2. and 2.B.4. will be submitted by November 6, 1987.

The remaining St. Lucie Unit 1 and Unit 2 questions will be addressed by February 5, 1988.

The NRC staff has found the above stated response schedule acceptable.

If additional discussion on this topic is required in the interim, please contact us.

Very truly yours,

C. O. Woody
Group Vice President
Nuclear Energy
