Gentlemen:

Re: St. Lucie Unit 2  
Docket No. 50-389  
Revised Proposed Diesel Generator Technical Specifications

By letter L-85-333, dated August 27, 1985, Florida Power & Light Company (FPL) submitted a request to amend Facility Operating License NPF-16. The amendment request involved changes to the Diesel Generator Technical Specifications in response to NRC Generic Letter 84-15, NRC recommendations regarding the North Anna Unit 2 Technical Specifications issued as Amendment No. 48 to Facility Operating License NPF-7, and additional discussions with NRC on Emergency Diesel Generator surveillance requirements and reliability.

As a result of NRC staff review of this amendment request, several areas which needed clarification were identified. The staff indicated that the North Anna Unit 2 Technical Specifications should be considered as the "Standard Tech Specs" for Diesel Generator Technical Specifications. As a result, by letter L-86-189, dated May 7, 1986, FPL submitted revised Technical Specifications which reflected the North Anna Unit 2 format and wording. This submittal was intended to provide the requested clarification.

As a result of additional discussions and a visit to the St. Lucie Plant by the staff subsequent to our May 7, 1986 letter, other corrections and enhancements to the proposed license amendment were identified. The attached Technical Specification pages reflect the results of these discussions and the staff's site visit. The attached pages are intended to supercede both the August 27, 1985, and May 7, 1986, submittals.

Attached is a revised Safety Evaluation and No Significant Hazards Consideration.

U. S. Nuclear Regulatory Commission  
L-87-413  
Page two

By letter L-86-501, dated December 12, 1986, FPL proposed to amend Technical Specifications 4.8.1.1.2b. and 4.8.1.1.2c. related to the Surveillance Requirements for Emergency Diesel Generator fuel oil. Our December 12, 1986, proposed license amendment is unaffected and remains as submitted.

If additional information is required on this topic, please contact us.

Very truly yours,

C. O. Woody  
Group Vice President  
Nuclear Energy
