Dear Mr. Conway:

SUBJECT: GENERIC LETTER 83-28, ATWS ITEM 2.1 (Part 2), VENDOR INTERFACE
PROGRAM - RTS COMPONENTS (TAC NOS. 52883 AND 52884)

Florida Power and Light Company (FP&L) was required by Generic Letter 83-28 Item 2.1 (Part 2) to confirm that it has established an interface with either the NSSS vendor or with the vendors of each of the components of the Reactor Trip System. The response was also to confirm that this interface program includes periodic communications between FP&L and the vendor(s) and a system of positive feedback which confirms receipt by FP&L of transmittals of technical information. FP&L responded and our review of the responses, as documented in the enclosed contractor's report (EG&G-NTA-7592), finds FP&L's response to Generic Letter 83-28, Item 2.1 (Part 2) to be acceptable. The enclosed Safety Evaluation Report documents our concurrence with the contractor's findings and also finds FP&L's response for this item to be acceptable. We therefore consider Part 2 of Item 2.1 to be closed by this action.

Sincerely,

E. G. Tourigny, Project Manager
Project Directorate II-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
