Thank you, Mike,

My co-worker, Gary Kilby, is the licensing engineer for this LAR. I've forwarded him your request and he'll get back with you very soon.

CAUTION - EXTERNAL EMAIL

Jarrett,

I have a quick question regarding LAR 249 for Turkey Point. For TS 3.6.1.6, the request states (page 12 of 21):

The containment tendons and the containment exterior surfaces are examined in accordance with the ASME Boiler and Pressure Vessel Code, Section XI, Subsection IWL, "Requirements for Class CC Concrete Components of Light-Water Cooled Plants," and the modifications presented in 10 CFR 50.55a(b)(2)(viii), "Examination of concrete containments," as modified by approved exemptions.

I believe that the Section XI edition relevant to Turkey Point is the 2007 Edition with the 2008 Addenda. Can you confirm that is the case?

Thanks,
Mike
