Gentlemen:

Re: St. Lucie Unit 2
Docket No. 50-389
Monthly Operating Report Correction

The purpose of this letter is to forward a corrected copy of the Average Daily Unit Power Level Report for St. Lucie Unit 2 for the month of June 1988. The corrected copy is attached. The previous report was provided in our letter, L-88-305, dated July 15, 1988. That report was inadvertently submitted with the average daily power figures for St. Lucie Unit 1 instead of Unit 2.

We hope this error has not caused too great an inconvenience. Should there be any questions on this revision, please contact us.

Very truly yours,

W. F. Conway
Senior Vice President - Nuclear
