U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D.C. 20555

Gentlemen:

Re: St. Lucie Units 1 and 2  
Docket Nos. 50-335 and 50-389  
NUREG-0737 Item II.D.1, Performance Testing of  
Relief and Safety Valves (TAC Nos. 44617 and 51605)

By NRC letter dated May 11, 1989, the Staff approved Florida Power & Light Company's (FPL) submittal in response to the subject TMI Action Plan requirement with the exception of the items outlined in Section 5.2 of the Technical Evaluation Reports (TERs). The Staff requested FPL to provide the NRC Project Manager a schedule for the resolution of the items outlined in the TERs. FPL has determined that technical resolution of these issues for St. Lucie Units 1 and 2 will be completed by December 15, 1989. Upon completion of this task, FPL will notify the St. Lucie Plant NRC Project Manager.

Should there be any questions, please contact us.

Very truly yours,

  
C. O. Woody  
Acting Senior Vice President - Nuclear
