Docket Nos. 50-335 and 50-389
Organization Changes

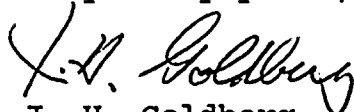

The purpose of this letter is to notify the NRC that Florida Power & Light Company (FPL) has implemented an organization change in the Nuclear Energy Department.

The undersigned has assumed the position of Executive Vice President and Acting Senior Vice President - Nuclear. Reporting to this position will be the Site Vice President - Turkey Point Nuclear, the Site Vice President - St. Lucie, the Vice President - Nuclear Energy, Director - Quality Assurance, and Director - Nuclear Licensing.

These changes were made under the provisions of 10 CFR 50.54(a)(3) in that the changes do not reduce the commitments in the Quality Assurance program description previously accepted by the NRC. These changes are also consistent with the requirements of the offsite organization technical specifications. In accordance with 10 CFR 50.54(a), these revisions will be submitted with the next annual submittal of the Topical Quality Assurance Report. Technical Specifications changes to facilitate this and future organizational title changes will be submitted in the near future.

Should you have any questions on this information, please contact us.

Very truly yours,

J. H. Goldberg
Executive Vice President
