Gentlemen:

Re: St. Lucie Units 1 and 2  
Docket Nos. 50-335 and 50-389  
Instrument Air Supply System Problems  
Affecting Safety-Related Equipment (Generic Letter 88-14)

By letter L-88-539, dated December 27, 1988, Florida Power & Light Company (FPL) provided its phased schedule for responding to Generic Letter (GL) 88-14. FPL Letter L-89-98, dated March 14, 1989, provided the first set of responses to GL 88-14; FPL letter L-89-232, dated June 28, 1989, provided the second response to GL 88-14.

In accordance with the schedule provided in L-88-539, FPL has verified by test that air-operated safety-related components on St. Lucie Unit 1 will perform as expected in accordance with all design-basis events, including a loss of normal instrument air system.

All actions required by Generic Letter 88-14 are now complete for St. Lucie Units 1 and 2.

Please contact us if you have any questions about this submittal.

Very truly yours,

D. A. Sager  
Vice President  
St. Lucie Plant
