Re: Amendment to NRC License # 21-32627-01

Dear Sir/Madam:

The purpose of this letter is to amend our current NRC license to reflect the following change:

**Item #1:** We are requesting a transfer of control of Top Cardiology Associates of Michigan, PLLC.

Dr. Goswami will be the new CEO of Top Cardiology Associates of Michigan, PLLC upon confirmation from the NRC. Dr. Garg will remain an authorized user on this license.

**Our new mailing address will be 43475 Dalcoma Drive., Suite 200, Clinton Township, MI 48038.**

We appreciate your assistance with this amendment. If you have any questions or require additional information, please contact our medical physics consultant, Laura Luna at 734-662-3197.

Respectfully Yours,

Amit Garg, M.D..  
CEO

Gunateet Goswami, M.D.  
RSO, and future CEO

## TRANSFER OF CONTROL

### PER INFORMATION APPENDIX G, NUREG-1556, VOL. 15

1. No transfer of stocks by sale will be made. All assets pertaining to the nuclear medicine department (imaging equipment, measuring equipment, exercise equipment) will be purchased from Dr. Garg by Dr. Goswami. The facility at 43475 Dalcoma Drive, suite 200 is owned by Dr. Goswami. Control of these assets will be given to Dr. Goswami by Dr. Garg when Transfer of Ownership is granted by the Nuclear Regulatory Commission. The name of the facility will remain Top Cardiology Associates of Michigan, PLLC.
2. All personnel and authorized users will remain the same. The Radiation Safety Officer will remain, Gunateet Goswami, M.D.
3. Top Cardiology Associates of Michigan, PLLC. will obtain possession of all nuclear medicine cameras, radioactive materials, sealed sources, measuring devices and radiation safety equipment. One location will remain at 43475 Dalcoma Drive., Suite 200, Clinton Township, MI 48038. The other site 43211 Dalcoma Drive, North Wing, Suite 9, Clinton Township, MI 48038 is closing. **Our mailing address will be 43475 Dalcoma Drive., Suite 200, Clinton Township, MI 48038.**
4. All required documents and records are currently kept in accordance with the NRC license condition. These include, but are not limited to the annual calibration of survey instruments, semi-annual leak testing of non-exempt sealed radioactive sources, radiation monitoring and personnel exposure monitoring reports. Radiation monitoring is performed on a daily basis for acceptable radiation levels and weekly for removable contamination.

The areas of storage, preparation, handling, and administration of radioactive materials are surveyed daily for acceptable radiation levels and weekly for removable contamination. If contamination of these areas is detected during these daily or weekly surveys, decontamination is undertaken and completed at that time.

5. Due to the small quantities and short half-lives of the unsealed radioactive materials, which we use, we are exempt from showing financial assurance for decommissioning. We do not use any unsealed radioactive materials with a half-life greater than 60 days and there are no open inspection items.
6. All parties involved with the transfer are aware and agree to the planned transfer of ownership. Please see the enclosed, signed agreement page.
