Attachments: 2017-002.pdf

Hello Gentlemen,

Attached is the inspection report for my June 14, 2017, unannounced inspection. As I discussed during the exit debrief, the inspection was of limited scope due to the absence of key personnel who were in the hospital or out on sick leave, and the lack of radiography work during the week of my inspection. Based on the limited scope, this inspection did not identify any violations.

If you have any questions about the inspection, please let me know.
