Washington, D. C. 20555

Gentlemen:

RE: St. Lucie Unit 2
Docket No. 50-389
Proposed License Amendment Revision
Increase Maximum Allowable RTD Delay Time (TAC 69863)

On October 24, 1988, Florida Power & Light Company (FPL) submitted a proposed license amendment to the Nuclear Regulatory Commission (NRC), requesting a 16 second RTD delay time. During the review process, FPL and the NRC staff have had numerous phone conversations and meetings concerning this proposed license amendment. At the request of the NRC staff, FPL is revising its proposed license amendment for RTD delay time from 16 seconds to 14 seconds. This revision provides for a very conservative margin from the analyzed value of 19 seconds.

Please contact us if there are any questions about this revision.

Very truly yours,

D. A. Sager
