Docket No. 50-335

Mr. J. H. Goldberg
President - Nuclear Division
Florida Power and Light Company
P.O. Box 14000
Juno Beach, Florida 33408-0420

Dear Mr. Goldberg:

SUBJECT: ST. LUCIE UNIT 1 - ASME CODE CASES N-432 AND N-474-1 (TAC NO. 75541)

In anticipation of having to repair pressurizer heater sleeves at St. Lucie Unit 1, by a letter dated December 21, 1989 (L-89-464), the Florida Power & Light Company requested review and approval of ASME Code Cases N-432 and N-474-1.

During the 1990 refueling outage of Unit 1, you inspected the pressurizer heater sleeves for leaks and found none in need of repair. Your staff informed us of that fact by telephone in February 1990. As a result of that notification, we have suspended our review process and have done no more work on this issue since that time.

Since there is no active need for this approval at present, we are closing TAC 75541.

Sincerely,
(Original Signed By)

Jan A. Norris, Senior Project Manager
Project Directorate II-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
