Docket No. 50-335

Mr. J. H. Goldberg
President - Nuclear Division
Florida Power and Light Company
Post Office Box 14000
Juno Beach, Florida 33408-0420

Dear Mr. Goldberg:

SUBJECT: ST. LUCIE UNIT 1 - ASME CODE CASES N-432 AND N-474-1

This is in response to your letter of September 26, 1991 (L-91-255), regarding the review of ASME Code Cases N-432 and N-474-1. As explained in our letter of August 14, 1991, the staff suspended the review of the above request because the anticipated repairs of the pressurizer heater sleeves did not materialize.

Should the need for repairs arise in the future, upon notification, we will reactivate the review and to the extent possible try to accommodate your schedular constraints. Since such repairs have a bearing on the restart date of your facility, your request would receive the highest priority ranking for the review effort.

Sincerely,

(Original Signed By)

Jan A. Norris, Senior Project Manager
Project Directorate II-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
