

ENCLOSURE 1

NOTICE OF VIOLATION

Florida Power and Light Company
St. Lucie

Docket No. 50-335
License No. DPR-67

During an NRC inspection conducted on December 2-6, 1991 a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1991), the violation is listed below:

10 CFR 50, Appendix B, Criterion V as implemented by Florida Power and Light Company's Topical Quality Report 1-76A requires that activities affecting quality shall be prescribed by documented instructions, procedures, or drawings of a type appropriate to the circumstances and shall be accomplished in accordance with these instructions, procedures, or drawings. Florida Power and Light (FP&L) Company's Radiographic Inspection Procedure #TS 9.3, Revision 0, paragraph 14.F requires that; permanent, non-permanent, and info films shall have the following identification permanently included on each film by use of lead characters during exposure or by visible light imprinter. The film identified shall not obscure the area being evaluated and shall be legible:

- *FPL-PSL-No. _____ Unit number
- *PC/M or CWO No.
- *System or Component Identification and Drawing No., Rev. No.
- *Weld No. or part number (as applicable)
- *Weld Repair Report No. (If applicable)
- *Date

Contrary to the above, On December 5, 1991 radiographic film for weld CH-554-001M, CH544-001N, 2F1-HVS-001D, and 2F1-HVS-101 were found either failing to have permanent film identification on the film, having film identification that was not legible, or having only partial film identification acquired by procedure T.S.9.3. In addition, the Radiographic Inspection Report for weld 2F-1-CH-0553-030 had not been signed or dated by the radiographer, weld 2F-1-CH-0544001N had been dated by the radiographer with a date 6 months after the film had been reviewed and repaired, and weld 2F-1-HVS-0010 had missing entries for the Report No. of exposures, and number of film which was in violation of procedure T.S.9.3. paragraph 17.B.1.

This is a Severity Level IV violation (Supplement I) Applicable to Unit 1 only.

Pursuant to the provisions of 10 CFR 2.201, Florida Power and Light Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and a copy to the

Florida Power and Light Company
St. Lucie

2

Docket No. 50-335
License No. DPR-67

NRC Resident Inspector, St. Lucie within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include [for each violation]: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
