SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Bilby:

In your letter dated May 31, 2017, you informed the U.S. Nuclear Regulatory Commission (NRC) that you wished to terminate your NRC radioactive material license no. 13-32412-01. Your request is available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) at accession no. ML17157B618.

In your request dated May 31, 2017, you provided close-out survey and wipe test results for the location of use at 2525 West University Avenue, Muncie, Indiana. You confirmed that all residual licensed material used at the location had been removed – such that any remaining residual radioactivity in that area of use is within the limits of Title 10 of the *Code of Federal Regulations* (CFR) Part 20, Subpart E.

The NRC staff has reviewed your final status surveys. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facility and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 13-32412-01 is hereby terminated.

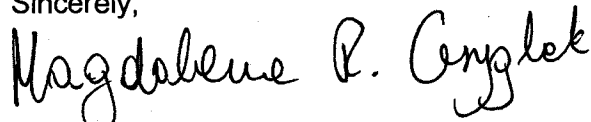

A. Bilby
