

August 21, 2017

The Honorable John Barrasso
Chairman, Committee on Environment
and Public Works
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

The U.S. Nuclear Regulatory Commission (NRC) is publishing the following document in the *Federal Register*:

- Title: "Naturally-Occurring and Accelerator-Produced Radioactive Materials" [Docket No. PRM-30-66; NRC-2017-0159].
- Description of the document: This document informs the public that the NRC has received a petition for rulemaking to amend its regulations by updating the list of "Quantities of Licensed Material Requiring Labeling." The petitioner believes the current list in Appendix B to Part 30 of Title 10 of the *Code of Federal Regulations* is outdated and does not contain all the radioisotopes that it should, therefore, causing licensing delays of important diagnostic and therapeutic products.
- Dates: Public comments on this petition for rulemaking are due 75 days after publication in the *Federal Register*.

For more information, see the enclosed document.

Please contact me at 301-415-1776, if you have questions or need more information.

Sincerely,

/RA/

Eugene Dacus, Director
Office of Congressional Affairs

Enclosure:
Federal Register notice

cc: Senator Thomas R. Carper
