JULY 26, 1996

Florida Power and Light Company  
ATTN: Mr. T. F. Plunkett  
President - Nuclear Division  
P. O. Box 14000  
Juno Beach, FL 33408-0420

SUBJECT: NRC INSPECTION REPORT NOS. 50-335/96-10 AND 50-389/96-10

Dear Mr. Plunkett:

This refers to the inspection conducted on June 24-27, 1996. The inspection included a review of activities authorized for your St. Lucie facility. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Although, we determined that the findings from your Fitness For Duty audit conducted in early-1996 were appropriately dispositioned, we are concerned over the extent of the problems identified. You should ensure that sufficient management attention is placed to keep Fitness for Duty performance at a high level.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Within the scope of the inspection, violations or deviations were not identified.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Sincerely,

ORIGINAL SIGNED BY  
PUAL FREDRICKSON

Paul E. Fredrickson, Chief  
Special Inspection Branch  
Division of Reactor Safety
