Docket Nos. 50-335 and 50-389
Management Review Meeting - October 1996

During a November 1995 meeting with the NRC, Florida Power and Light Company (FPL) reviewed the progress made in completing activities outlined in the St. Lucie Plan to Improve Operational Performance. FPL stated that meetings to review performance would be held monthly and would include a detailed review of the plant's key performance indicators. In the November meeting, FPL committed to provide the monthly review materials to the NRC.

Attached is a copy of the key performance indicators issued in October 1996 for St. Lucie Plant. The indicators were discussed at the October 17, 1996, FPL management review meeting at St. Lucie.

We look forward to NRC presence and feedback at these monthly meetings. If you have any questions on this material, please contact us.

Very truly yours,

J. A. Stall
Vice President
St. Lucie Plant
