Re: St. Lucie Units 1 and 2
Docket Nos. 50-335 and 50-389
October 1997 Initial Licensed
Operator Examination Outline

The purpose of this letter is to confirm that Florida Power & Light Company (FPL) has shipped the examination outline requested by NRC letter dated July 30, 1997. To ensure examination security, the material was shipped directly to Mr. George Hopper, the NRC Lead Examiner, on August 11, 1997, by the St. Lucie Training Department Exam Coordinator.

On August 5, 1997, FPL's Mr. Tim Bolander discussed the timing of the submittal of the proposed written examinations and operating tests with Mr. Hopper. FPL will be able to submit the reference material, operating test, and administrative portions of the written examination by the September 2, 1997, requested date. However, FPL has a contractor preparing the written portion of the examination and the original schedule for the delivery of the examination corresponds to the guidance in NUREG-1021, ES 301, *Preparing Initial Operating Tests*, which is 30 days before the examination date. FPL will expedite the submittal of the remainder of the written examination and will complete the submittal on or before September 13, 1997. Mr. Hopper has concurred with this revised schedule.

Should you require any additional information, please contact Mr. Tim Bolander at (561) 465-3550 ext. 3317.

Very truly yours,

J. A. Stall
Vice President
St. Lucie Plant
