RE: St. Lucie Units 1 and 2  
Docket Nos. 50-335 and 50-389  
Proposed License Amendment  
Environmental Protection Plan Revision

Pursuant to 10 CFR 50.90, Florida Power & Light Company (FPL) requests to amend Facility Operating Licenses for St. Lucie Units 1 and 2.

The proposed amendment revises the Unit 1 and Unit 2 Environmental Protection Plans (EPP) Section 4, "Environmental Conditions," and Section 5, "Administrative Procedures," to incorporate the proposed terms and conditions of the Incidental Take Statement included in the Biological Opinion issued by the National Marine Fisheries Service (NMFS) on February 7, 1997. FPL was requested by the NRC to submit the proposed license amendment by December 12, 1997.

Attachment 1 is a description of the proposed changes to the EPP and the analysis in support of the proposed changes. Attachment 2 is the proposed rationale for determining whether sea turtle mortalities in the intake canal are causal to plant operation or strandings. Attachment 3 is the "Determination of No Significant Hazards Consideration." Attachment 4 is a marked up copy of the St. Lucie Unit 1 EPP. Attachment 5 is a marked up copy of the Unit 2 EPP.

FPL proposes that the wording suggested for Sections 4 and 5 of the Unit 2 EPP also be included verbatim in Sections 4 and 5 of the Unit 1 EPP for consistency. The proposed language that would appear in both EPPs is included in Attachment 5. The proposed deletion of the existing Section 4 in the Unit 1 EPP is included in Attachment 4.

The proposed amendment has been reviewed by the St. Lucie Facility Review Group and the Florida Power & Light Company Nuclear Review Board.

In accordance with 10 CFR 50.91 (b)(1), a copy of the proposed amendment is being forwarded to the State Designee for the State of Florida.
