Re: St. Lucie Unit 1
Docket No. 50-335
In-Service-Inspection Program
Second Interval Third Period
Owner's Activity Report

Enclosed is the St. Lucie Unit 1 second interval, third period, ASME Section XI Form OAR-1, Owner's Activity Report. The second interval and third period ended on February 11, 1998. The Form OAR-1, Owner's Activity Report, implements Code Case N-532. This code case, approved by the NRC for St. Lucie Units 1 and 2 on November 6, 1995, provides an alternative to the reporting requirements of ASME Section XI, Articles IWA-6220(c) and (d), and IWA-6230. The OAR-1 report is prepared and certified upon completion of each refueling outage and submitted following the end of each inspection period.

This is the first Form OAR-1 report using the Code Case N-532 alternative and is for the last refueling outage (SL1-15) in the third period of the second interval.

Should there be any questions, please contact us.

Very truly yours,

J. A. Stall
Vice President
St. Lucie Plant
