RE: St. Lucie Units 1 and 2
Docket Nos. 50-335 and 50- 389
Supplemental Response
Generic Letter 97-06

The purpose of this letter is to supplement the Florida Power and Light Company (FPL) response to Generic Letter (GL) 97-06, *Degradation of Steam Generator Internals*, for St. Lucie Units 1 and 2.

In the initial St. Lucie response L-98-81 dated March 20, 1998, FPL stated that the response relied on information in Combustion Engineering Owners Group (CEOG) reports CE NPSD-1103 and CE NPSD-1104 which were in final draft. The reports were expected to be completed and submitted to the NRC by Nuclear Energy Institute (NEI) by June 1998. When these reports were finalized and submitted, FPL committed to confirm in writing that their applicability and the conclusions do not impact our original response. On May 7, 1998, NEI submitted the final CEOG reports to the NRC.

FPL has reviewed the final reports CE NPSD-1103 Revision 0 dated April 1998, CE NPSD-1104-P Revision 0 dated April 1998, CE NPSD-1104-NP Revision 0 dated April 1998, and CE NPSD-1092 Revision 1 dated April 1998 and determined that the final reports do not impact our original response submitted by FPL letter L-98-81 dated March 30, 1998.

Please contact us if there are any questions about this submittal.

Very truly yours,

J. A. Stall
