RE: St. Lucie Units 1 and 2
Docket Nos. 50-335 and 50-389
Voluntary Response
Administrative Letter 98-03

The purpose of this letter is provide the Florida Power & Light Company (FPL) voluntary response to NRC Administrative Letter (AL) 98-03, *Operating Reactor Licensing Action Estimates*, for St. Lucie Units 1 and 2.

On May 6, 1998, the NRC issued AL 98-03 to request power reactor licensees, on a voluntary basis, to submit information pertaining to estimates of the number of licensing actions that will be submitted to the NRC for review during the remainder of fiscal year (FY) 1998 and FY 1999. For planning purposes, licensing actions were defined as requests for license amendments, exemptions, and reliefs.

Specifically, licensees were requested to provide (1) a simple numerical estimate of the licensing actions expected to be submitted in the remainder for FY 1998 and (2) an estimate of the number of licensing actions expected to be submitted in FY 1999. To adequately capture the larger resource impact of certain licensing reviews, licensees were requested to identify by brief title those licensing actions that are expected to generate complex reviews, such as power uprate requests, license renewal requests, and dry cask storage applications.

The response to the requested information is attached. Please contact us if there are any questions about the estimates.

Very truly yours,

J. A. Stall
