Re: St. Lucie Unit 2
Docket No. 50-389
Proposed License Amendment: SFP Storage Capacity;
Soluble Boron Credit (TAC No. MA0666); TS Pages

- Ref: (1) FPL Letter L-97-325, J. A. Stall to NRC (DCD): Proposed License Amendment, SFP Storage Capacity; Soluble Boron Credit; December 31, 1997.
- (2) FPL Letter L-98-132, Rajiv S. Kundalkar to NRC (DCD): Proposed License Amendment: SFP Storage Capacity; Soluble Boron Credit (TAC No. MA0666), Response to Request for Additional Information; May 15, 1998.
- (3) FPL Letter L-98-221, J.A. Stall to NRC (DCD): Proposed License Amendment: SFP Storage Capacity; Soluble Boron Credit (TAC No. MA0666); Summary of June 18 and July 24, 1998 Teleconferences; September 15, 1998.
- (4) FPL Letter L-98-294, J.A. Stall to NRC (DCD): Proposed License Amendment: SFP Storage Capacity; Soluble Boron Credit (TAC No. MA0666); Supplement; November 25, 1998.
- (5) FPL Letter L-99-007, J.A. Stall to NRC (DCD): Proposed License Amendment: SFP Storage Capacity; Soluble Boron Credit (TAC No. MA0666); Full Core Offload; January 28, 1999.

The purpose of this letter is to transmit the Technical Specifications (TS) pages requested by the NRC staff for use in the issuance of the subject proposed license amendment for St. Lucie Unit 2. Docketed correspondence involving the proposed amendment includes References 1 through 5.

Please note that, when compared to the original submittal, the attached Figures 5.6-1a through 5.6-1d have been redrawn in order to more appropriately illustrate the applicable data. Accordingly, the corresponding figures of Reference (1), Attachment 3, and the same graphs shown as Figures 11 through 14 of Reference (1), Enclosure 1, are superseded.

Please contact us if there are any questions about this matter.

Very truly yours,

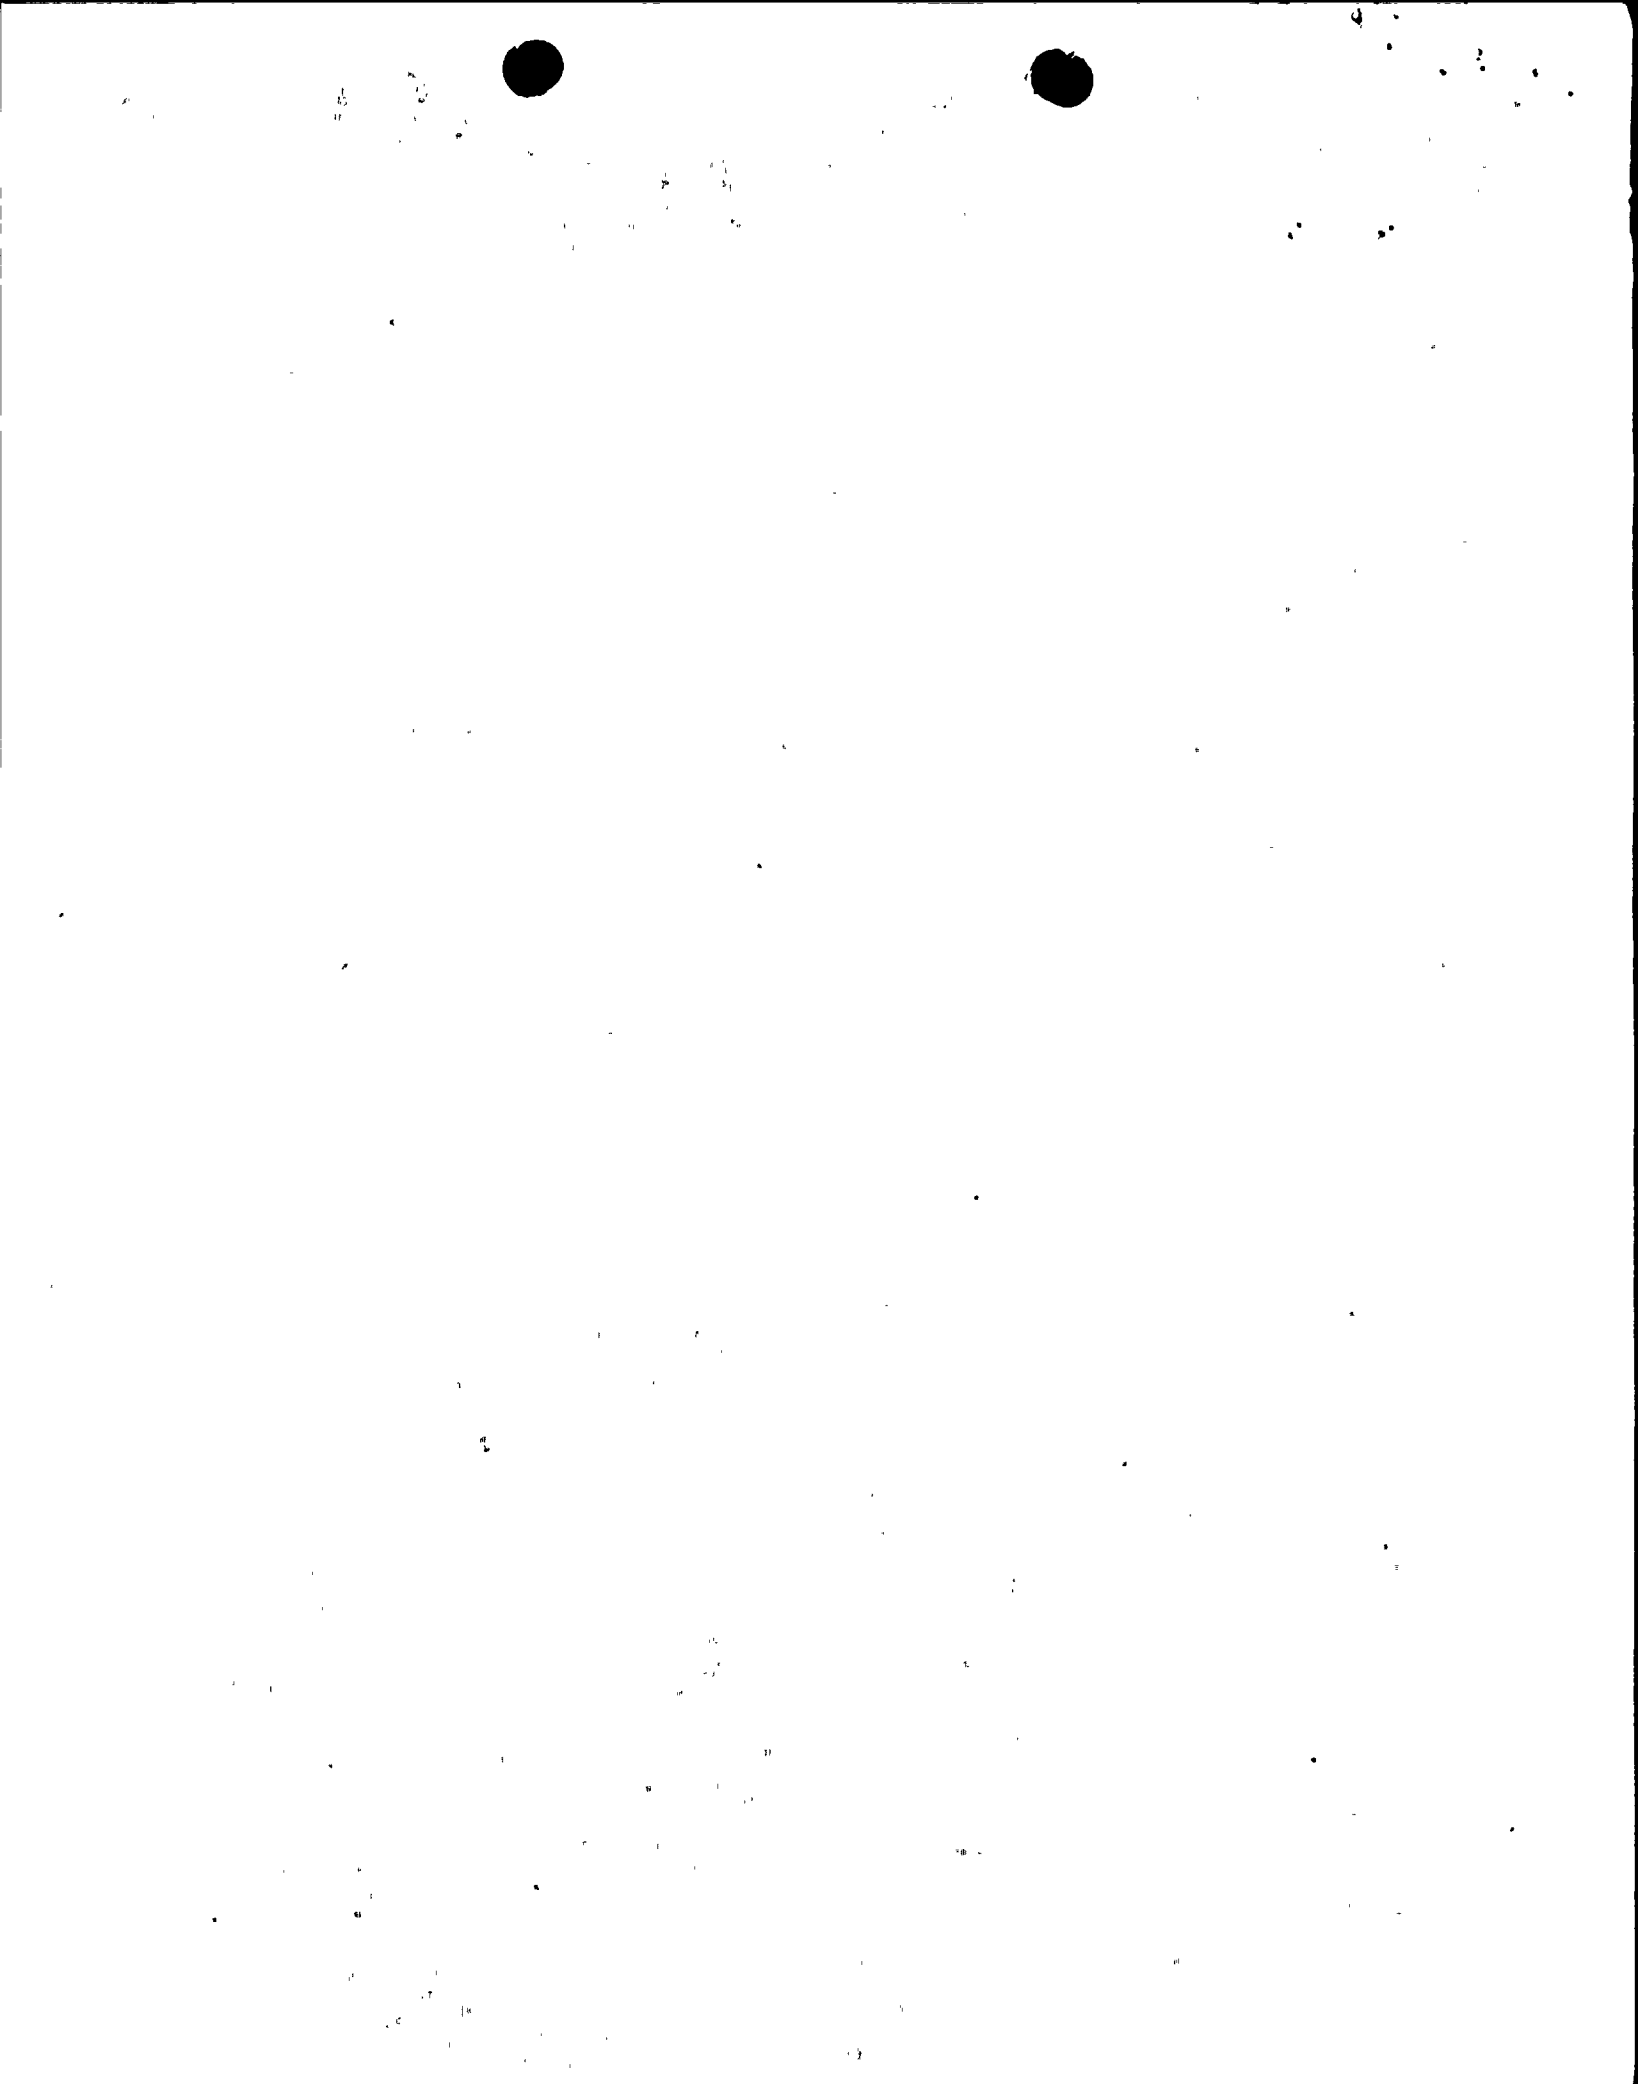

J. A. Stall
Vice President
