Dear Mr. Williams:

Enclosed is a copy of Oregon's Final Administrative Rules relating to chapter 333, Division 102, Distribution of Source Materials to Exempt Persons and Division 120 Standards for Protection against Radiation as published with the Oregon Secretary of State.

Five comments received for RATS 2011-1 from the Nuclear Regulatory Commission letter dated October 17, 2014 have been addressed with final rule amendments established.

<u>Rats ID</u>	<u>Title</u>	<u>State Section</u>
2011-1	Decommissioning Planning	OAR Chapter 333, Division 102
	These rules were final and filed with the Oregon Secretary of State October 1, 2015	
1995-2	Frequency of Medical Examinations for Use of Respiratory Protection Equipment	OAR Chapter 333, Division 120
	This rule became final and filed with the Oregon Secretary of State September 2008.	

We believe that the adoption of these final rules satisfies the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards procedure SA-200.
