License No. 45-31299-01
Docket No. 03037620
Control No. 600053

Ms. Bergin,

We have received the June 8, 2017 amendment request letter, which you provided to Orysia Masnyk Bailey during her inspection of your NRC license. The letter requests addition of the Gammabeam 500 teletherapy device to your license as well as changing the authorized user (service trainer) from Daniel Arvisais to Victor Moga. We have combined this request with the RSO change request dated June 29, 2017.

In order to continue our review we need the following additional information:

Authorized User's must have adequate training and experience to use, possess, or provide services involving licensed materials. Experience requirements could consist of on-the-job training done under the supervision of a qualified individual (AU, RSO, or manufacturer's representative). Please provide the training and/or experience for Victor Moga to be listed as an authorized user/trainer on your NRC license. Guidance can be found in section 8.7.2 of NUREG-1556 Vol. 18, "Program-Specific Guidance About Service Provider Licenses" which may be found at: <https://www.nrc.gov/docs/ML0037/ML003779351.pdf>
