Washington, DC 20555-001

**SUBJECT: REVISED QUALITY ASSURANCE PROGRAM FOR RADIOACTIVE  
MATERIAL PACKAGES DOCKET NO. 71-0062 REVISION 13, MAY 21, 2015**

To Whom It May Concern:

In accordance with 10 CFR 71.106, Industrial Nuclear Company, Incorporated reports that one minor change was made to its Quality Assurance Program, Revision 13, dated May 21, 2015 in the past 24 month period. The change was to the title on the cover page. The change added the applicability of the QA program to source assemblies as follows: "Design, Fabrication, Assembly and Testing of Type B Shipping Containers and Source Assemblies." No other changes were made and no reductions in commitments result from this revision.

If you have any questions please contact Mike Rose, QA Manager, at 510.352.6766.

Thanks,

Mike Rose,

QA Manager
