Dear Dr. Morris:

The application for a construction permit and operating license for Dresden Unit 3, filed February 10, 1966 under AEC Dkt 50-249, is hereby amended by submission of Amendment No. 22.

The purpose of this amendment is to provide additional information required in your review of our application for a provisional operating license for Dresden Unit 3. This additional information consists of: (a) a discussion of matters raised in recent licensing reviews and noted in the report of the Advisory Committee on Reactor Safeguards on Dresden Unit 2 (September 10, 1969), (b) a description of apparent differences between Unit 3 and the recently licensed Unit 2, (c) a description of certain site related features, and (d) our proposed Technical Specifications for Unit 3.

In addition to three signed originals, 77 copies of this amendment are also submitted.

A certificate confirming service of Amendment 22 upon the Chairman of the Grundy County Board of Supervisors will be filed herein when an acknowledgment of receipt thereof has been obtained.

Very truly yours,
