Gentlemen:

In order to complete our review of your financial qualifications concerning your application for a license to operate the Dresden Nuclear Power Station Unit 2, it will be necessary that you provide financial data in accordance with Section 50.33(f) of 10 CFR 50. This information should include:

1. Estimated annual costs of operating the nuclear facility for a five-year period.
2. Estimated costs of permanently shutting down the facility and maintaining it in a safe condition, if and when it may occur.
3. 1968 Annual Report of Commonwealth Edison Company.

The above data should be filed as an amendment to your application, with three copies signed under oath or affirmation and nineteen additional copies. At a later date, we will contact you for similar data on Dresden Unit 3.

Your attention is also directed to Section 50.71(b) of 10 CFR 50 requiring that each licensee or holder of a construction permit upon the issuance of each annual financial report, including the certified financial statement, shall file a copy thereof with the Commission. We request that seven copies of such reports (rather than one) be furnished the Commission.

Sincerely yours,

Original Signed by
Peter A. Morris

Peter A. Morris, Director
Division of Reactor Licensing
