Docket Nos. 50-237
and ~~50-249~~

Commonwealth Edison Company
ATTN: Mr. R. L. Bolger
Assistant Vice President
Post Office Box 767
Chicago, Illinois 60690

Gentlemen:

RE: DRESDEN NUCLEAR POWER STATION UNITS 2 AND 3

Enclosed for your information is a copy of a letter dated January 3, 1977 from Robert D. Pollard, which is being considered as a Request for Action pursuant to 10 CFR 2.206, regarding your License Nos. DPR-19 and DPR-25 and others.

A copy of the Notice we are filing with the Office of the Federal Register relating to this request is also enclosed for your information.

The letter from Mr. Pollard, among other things, states that a refueling accident inside the reactor containment building may not have been adequately considered during the licensing review of your facility. Based on our preliminary review of available information, such an accident was considered during the licensing review for your facility and potential site boundary radiation exposures would be well within 10 CFR Part 100 guidelines. On the basis of this review we expect that modifications to your facility will not be required. Should you have information that might change the results of our review, please notify us promptly.

Sincerely,

Original signed by
Dennis L. Ziemann
