Gentlemen:

This office has received a copy of your May 11, 1978 application for amendment to Facility License Nos. DPR-19 and DPR-25 which you filed with the Office of Nuclear Reactor Regulation, Division of Operating Reactors. The application relates to your proposed modification of the spent fuel storage pool for Dresden Units Nos. 2 and 3. The application was accompanied by fees totalling \$4,400 for one each of amendment fee Classes III and I.

We have determined that the requested action falls in amendment fee Classes IV and I (totalling \$12,700) because pool modifications are considered to be actions involving significant hazards considerations. Therefore, you should forward the additional \$8,300 to this office promptly. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be refunded any overpayment or billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,

Signed by

Wm. O. Miller
