All Power Reactor Licensees and Applicants

Gentlemen:

This letter and enclosed NUREG 0219, Draft 2 are being sent to all licensees authorized to operate a nuclear power reactor and to all applicants with applications for a license to operate or construct a power reactor.

NUREG 0219 outlines the current position of the NRR staff on implementation of the requirement to upgrade the qualification, training and equipping of security personnel. Since this is a draft, I would appreciate your comments by May 19, 1978 so that actual plant operating experience with security personnel can be factored into the final document.

Sincerely,

A handwritten signature in cursive script that reads "James R. Miller". The signature is written in dark ink and is positioned above the typed name and title.

James R. Miller, Assistant Director  
for Reactor Safeguards  
Division of Operating Reactors

Enclosure:  
NUREG 0219
