You submitted a proprietary "Description of CECO Techniques for Developing Rod Withdrawal Sequences" (dated October 15, 1975) with your letter dated October 16, 1975, but did not request that this document be withheld from public disclosure.

All requests for withholding of proprietary information from public disclosure should be filed with a specific request therefor pursuant to Section 2.790 of 10 CFR Part 2 of the Commission's regulations. They should include specific identification of the proprietary information together with a full explanation of why the information should be handled as proprietary. Each item designated as proprietary must have a justification as to why it is proprietary.

We will place the above document in the public document rooms unless you request withholding and provide sufficient justification for the withholding within 30 days from the date of this letter, or request withdrawal of the document.

Sincerely,

Original Signed by:
Dennis L. Ziemann

Dennis L. Ziemann, Chief
Operating Reactors Branch #2
Division of Reactor Licensing
