Docket No. 50-249

Commonwealth Edison Company
 ATTN: Mr. J. S. Abel
 Nuclear Licensing Administrator -
 Boiling Water Reactors
 Post Office Box 767
 Chicago, Illinois 60690

Gentlemen:

Your letter dated October 24, 1973, transmitted as proprietary information Supplement A to Dresden Station Special Report No. 26 (NEDC-10692), "Dresden Unit 3 Start-up Test Report," and requested that it be withheld from public disclosure pursuant to 10 CFR 2.790(b). By letter dated May 4, 1973, we received the non-proprietary Special Report No. 26.

You stated that the proprietary information was furnished to Commonwealth Edison Company and the Atomic Energy Commission by General Electric Company for the purpose of comparing the results of vibration measurements on Dresden Unit 3 taken during the startup test program with the design criteria. You also stated that this information is unpublished and that GE considers the information to be proprietary and that public disclosure would adversely affect their interests. The Regulatory staff has examined Supplement A to Dresden Station Special Report No. 26 and, pursuant to Section 2.790(b) of 10 CFR Part 2, has approved your withholding request.

Accordingly, pursuant to Section 2.790(b) of 10 CFR Part 2, we are withholding Supplement A from public inspection. Withholding of this information from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the document.

Sincerely,

Original Signed by
 D. J. Skovholt
