Gentlemen:

We are reviewing the Dresden Unit 3 reload submittal dated January 21, 1975, and have concluded that information, in addition to that which you have submitted and have committed to submit, is needed to complete our review. The additional information needed is the same as that requested for Quad Cities (Docket No. 50-265) by letters dated February 3, February 14, February 23, February 28 (Docket Nos. 50-254 and 50-265), March 7, March 10, March 26 and March 27, 1975. Information submitted for Quad Cities which is applicable to Dresden 3 may be incorporated by reference.

To enable us to maintain our review schedule, please submit the additional information described above with the supplements you have agreed to submit. Our understanding is that the supplements regarding GETAB and transient analyses will be submitted by about April 15 and the Appendix K analysis by May 12, 1975.

If practical, you are requested to submit the GETAB-based technical specifications and supporting analyses for Dresden 2 with the Dresden 3 submittal. This would facilitate simultaneous review and issuance of GETAB-based technical specifications for both reactors.

Sincerely,

Original signed by  
Dennis L. Ziemann
