Re: NRC Materials License No. 13-26408-01 Change of Control Request

Dear Ms. Cender:

In reference to email dated August 24, 2017, this letter will document the transfer of control of all nuclear density/moisture gauges and office storage locations under Terracon Consultants, Inc. purchase agreement with Earth Exploration, Inc. that occurred on May 31, 2017. All storage locations and location RSOs will remain the same.

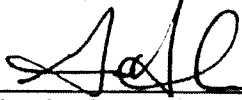

All Earth Exploration, Inc. historical records concerning the radiation program including gauge maintenance file, leak tests, records of license devices and all records relating to enforcements (inspections) have been provided to Terracon Consultants Inc. which are stored on the Terracon Corporate database and gauge storage offices. The Terracon Corporate Radiation Safety Officer authorizes the possession of these devices and storage locations.

Subject: NRC Materials License No. 13-26408-01 Change of Control Request

Hello Christopher,

My name is Laura Cender and I work the U.S. Nuclear Regulatory Commission, and I am in the process of reviewing your change of control application. In the process of the application review, it was determined that additional information is required before the change of control can be approved. Specifically, please provide the information specified below:

1. Please provide a copy of transaction agreement confirming the acquisition of Earth Exploration, Inc. by Terracon Consultants, Inc. Please ensure that this document specifies the effective date of the change of control.
2. Please provide confirmation that all records relating to enforcement (inspection) and decommissioning have been provided to Terracon Consultants, Inc. Please note that decommissioning records include documents such as leak tests and records of licensed devices that may have been transferred to other licensed organizations for use or disposal.
 - a. In your application, in the section stating "Confirm that all records concerning safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity." Your response to this statement was "Not applicable at this time."
3. Please confirm the name and title of the individual who signed the Transfer of Control application dated 5/31/2017 on the behalf of Earth Exploration, Inc.

Please send your responses in the form of an attached letter that contains both a signature and date.

Please feel free to contact me at 630-829-9712 or via email with any questions.

Respectfully,
Laura Cender
