SUBJECT: UPDATED INSPECTION PLAN FOR CALVERT CLIFFS NUCLEAR POWER
PLANT UNITS 1 AND 2 – INSPECTION REPORT 05000317/2017005 AND
05000318/2017005

Dear Mr. Hanson:

The enclosed inspection plan lists the inspections scheduled through June 30, 2019, for your Calvert Cliffs Nuclear Power Plant. The NRC provides the inspection plan to allow for the resolution of any scheduling conflicts and personnel availability issues. Routine inspections performed by resident inspectors are not included in the inspection plan. The inspections listed during the last twelve months of the inspection plan are tentative and may be revised. The NRC will contact you as soon as possible to discuss changes to the inspection plan should circumstances warrant any changes. This inspection plan does not include the plan for security-related inspections, which will be sent via separate, non-publicly available correspondence.

In addition to normal baseline inspection, the NRC will be performing infrequent inspections under Inspection Procedure 60855.1, "Operation of an Independent Spent Fuel Storage Installation at Operating Plants."

Please contact me at 610-337-6953 with any questions you have regarding this letter.

Sincerely,

/RA/

Anthony Dimitriadis, Chief
