Subject: [External_Sender] report Adams location

Dear Ms Snyder,
The report to which I referred with photographs showing components of the main Davy Crockett warhead at Pohakuloa Training Area can be found at ML092950352.
The appendices of the report are not included but available at the Army Hawaii Garrison website. However, when I try to access that site, my on-line software reports that the site is improperly configured and will not connect me to that site.

Regards,
/s/
Michael Reimer, Ph.D.
