Dear Ms Snyder,

The eclipse was a grand show. I have seen several and they are always different. The 1991 eclipse in Hawaii was the longest I have experienced, over 4 minutes of totality. It is easy to understand why the ancients were often terrified, sensing this could be a portent of disaster, but today, knowing the mechanics, it is a wonder to behold!

If you need to contact me, my phone is now in range of a cell phone tower. Or e-mail will work as well.

Best regards,

/s/

Mike Reimer
