

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

September 8, 2017

Mr. Daniel Stoddard
Senior Vice President and
Chief Nuclear Officer
Virginia Electric and Power Company
Innsbrook Technical Center
5000 Dominion Blvd.
Glen Allen, VA 23060-6711

SUBJECT: NORTH ANNA INDEPENDENT SPENT FUEL STORAGE INSTALLATION AND
SURRY INDEPENDENT SPENT FUEL STORAGE INSTALLATION –
TEMPORARY MODIFICATION OF IMPLEMENTATION OF U.S. NUCLEAR
REGULATORY COMMISSION ORDER EA-02-104

Dear Mr. Stoddard:

By letter dated September 7, 2017, Virginia Electric and Power Company (Dominion) requested a one-time modification from specific interim compensatory measures (ICMs) listed in the U.S. Nuclear Regulatory Commission (NRC) Order EA-02-104 for the North Anna Independent Spent Fuel Storage Installation (ISFSI) and Surry ISFSI. Dominion indicated that due to the severe weather associated with Hurricane Irma and the consequent concern for security personnel safety, it might be necessary to modify implementation of several of the ICMs contained in the Order. Specifically, Dominion proposed a one-time modification to the implementation of its response to ICMs C.1.b, C.3.a(1), and C.3.d of the Order.

The NRC staff concluded that your proposed one-time modification to the ICMs contained in NRC Order EA-02-104 is acceptable for the North Anna ISFSI and Surry ISFSI. We understand, per the commitment in your September 7 letter referenced above, that you will report any suspension of security measures related to the North Anna or Surry ISFSI in accordance with the provisions of Title 10 of the *Code of Federal Regulations* Part 73.71. The NRC staff understands that the contingency plans proposed by Dominion will no longer be used once the severe weather condition has passed.

Sincerely,

/RA/

Scott W. Moore, Acting Director
Office of Nuclear Material Safety
and Safeguards
