Docket No. 50-244.

Rochester Gas and Electric Corporation  
ATTN: Mr. Roger W. Kober  
Vice President  
Electric and Steam Production  
49 East Avenue

Gentlemen:

Subject: Inspection 50-244/88-01

During the period January 24 - March 6, 1988, members of NRC Region I staff conducted routine safety inspections at your facility. We documented the results of that inspection in the enclosed report. At the conclusion of the inspection period, Mr. C. Marschall of my staff summarized the inspection findings with Mr. S. Spector and other members of your staff.

As described in paragraph 10 of the enclosed Inspection Report, the inspectors identified an apparent violation in the area of Radiation Controls. This is an additional example of a violation identified in Inspection Report 50-244/88-02. Because a similar violation was previously identified during this time period, no additional Notice of Violation is warranted. We request that you address this additional violation in your response to the Notice of Violation in Inspection Report 50-244/88-02.

Your cooperation with us in this matter is appreciated.

Sincerely,

**Original Signed By**  
**Lee H. Bettenhausen**
