Mr. John E. Maier, Vice President
Electric and Steam Production
Rochester Gas & Electric Corporation
89 East Avenue
Rochester, New York 14649

Dear Mr. Maier:

SUBJECT: CONTROL OF HEAVY LOADS (PHASE I)

Re: R. E. Ginna Nuclear Power Plant

Generic Letter dated December 22, 1980 requested licensees to review their controls for the handling of heavy loads to determine the extent to which the guidelines of NUREG-0612 (Control of Heavy Loads at Nuclear Power Plants) were satisfied. If the guidelines were not satisfied, the licensees were to identify the changes and modifications that would be required to fully satisfy them.

The responses were made in two phases. Rochester Gas and Electric Corporation (RG&E) responded to Phase I by submittals dated February 1, 1982, March 2, 1983, October 12, 1983 and January 11, 1984. We have completed our review of Phase I and a copy of our Safety Evaluation is enclosed for your information. We have conducted that RG&E has satisfied the guidelines in NUREG-0612, Sections 5.1.1 and 5.3. This completes our review of Control of Heavy Loads (Phase I) for your facility.

Upon receipt of your submittal of Control of Heavy Loads (Phase II), we will begin our evaluation of it.

Sincerely,

Original signed by

Dennis M. Crutchfield, Chief
