

VOID SHEET

TO: License Fee Management Branch

FROM: RIII - Materials Licensing Branch

SUBJECT: VOIDED APPLICATION

Control Number: 600620 (Amendment)

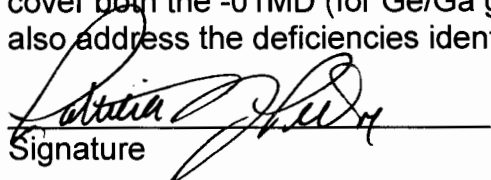

Applicant: Spectron MRC, LLC

License Number: 13-32726-01MD

Docket Number: 030-38044

Date Voided: 9/12/2017

Reason for Void: NRC cannot take any further action to expand the scope of the license to include Ge/Ga generators for R&D use because the licensee failed to provide financial assurance to address this material. Further, there is a pending financial assurance deficiency letter for the -02 license (DFP) (CN 575631) that was issued 3/18/2014 that the licensee has failed to respond to. These issues were discussed with the licensee during a conversation on 9/1/2017 and documented in an email dated 9/1/2017 to G. Hiatt (RSO/Owner) ML17250A352. The DFP will need to be revised to cover both the -01MD (for Ge/Ga generators) and -02 licenses and also address the deficiencies identified in the referenced letter.
