Per your recent request concerning the $^{137}\text{Cesium}$ source:

There was one(1) radioactive source permitted under the referenced license. This was a $^{137}\text{Cesium}$ Vial Reference Source (SN: S356035-010, 181 uCi on 01/01/2005). Possession of this source was transferred to Mid America Isotopes, Ashland, MO (USNRC Lic: 24-26241-01MD) on 06/15/2017.

The letter from Mid America isotopes confirming receipt of the source is attached.

Should you have any questions please contact Walter Kopecky, Ph.D at any of the following:

Office: 314-275-8224

Dr. Kopecky,

As discussed yesterday via telephone please provide proof of receipt for the sealed sources sent to Mid America Isotopes by 9/21/17. Please included a signed (scanned copy is fine) and dated cover letter with the information.

If you have any question please let me know.
