Docket No. 50-244

Rochester Gas & Electric Corporation  
ATTN: Mr. John E. Maier  
Vice President  
89 East Avenue  
Rochester, New York 14649

Gentlemen:

By letter dated November 21, 1980, changes to the Quality Assurance Program for R. E. Ginna Nuclear Power Plant were filed with the Office of Nuclear Reactor Regulation (ONRR) for review. Fees in accordance with the provisions of 10 CFR 170.22 were not remitted with your request. Approvals, such as that required for your changes to the Quality Assurance Program, are subject to fees in the same manner as applications for license amendments.

Based on information provided by the ONRR review staff as a result of their review of the request, it has been determined that the review involved consideration of an issue that was administrative. Therefore, a Class II fee (\$1,200) is required for your November 21, 1980 request. It is our understanding that review of the QA Changes was completed by the ONRR staff on June 22, 1981.

Sincerely,

Original Signed by:
