

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555
February 27, 1981

Docket No. 50-244

Memorandum to: Mrs. June Rogoff, Librarian, Rochester, New York,
Local Public Document Room

From: Jona L. Souder, Chief Local Public Document Room
Branch

Subject: Transmission of Facility Emergency Planning Information,
Ginna

Please note that the material transmitted with this memorandum is Emergency Planning Information, and as such, may be of great public interest. Because of this anticipated public interest, please make this material available as soon as possible in a conspicuous area of the collection, such as with the Safety Analysis Report and Environmental Report binders. You might want to let others in your office or department know that this Emergency Planning information is in the LPDR collection as they may also receive requests or questions from the public concerning it.

If you have any questions or problems related to this memorandum or the material that it transmits, please do not hesitate to contact us by writing or calling at (800) 638-8081.

Sincerely,

Jona L. Souder

12. NRC FEE DETERMINATION

The above application has been reviewed in accordance with Section 170.22 of Part 170 and is properly categorized.

The above application has been reviewed in accordance with Section 170.22 of Part 170 and is incorrectly classified.

Fee should be class(es):

JUSTIFICATION FOR CLASSIFICATION OR RECLASSIFICATION:

This submittal does not require a fee. Modifications have been previously reviewed and approved by NRC and these changes are the concluding portion of that review and not a request for a new review. Exempt per 7/3/78 memo.

This application is a Class III type of action and is exempt from fees because it is:

Filed by a nonprofit educational institution.

Filed by a Government agency and is not for a power reactor.

For a Class I, II, or III amendment which results from an NRC request dated _____ for the application and the amendment is to simplify or clarify License or Technical Specifications; has only minor safety significance; and is being issued for the convenience of NRC (must meet all of the criteria).
