Docket No. 50-244

Rochester Gas and Electric Corporation
ATTN: Mr. Roger W. Kober
Vice President
Electric and Steam Production
49 East Avenue
Rochester, New York 14649

Gentlemen:

Subject: Inspection 50-244/87-04

This refers to the routine safety inspection conducted by Mr. T. J. Polich of this office from February 8, 1987 through March 14, 1987 at the R. E. Ginna Nuclear Power Plant of activities authorized by NRC License No. DPR-18 and to the discussions of our findings by Mr. Polich with Messrs. S. M. Spector, T. A. Meyer and other members of your staff periodically during the inspection. Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter.

Based on the results of this inspection, it appears that two of your activities were not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. Your response to this notice is to be submitted in accordance with the provisions of 10 CFR 2.201 as stated in Appendix A, Notice of Violation.

In addition, your attention is directed to the comments in Paragraph 8 of the enclosed Inspection Report regarding our evaluation of the licensed operator requalification program. Overall, program implementation was determined to be adequate, but a finding regarding the use of a large percentage of questions from previously administered examinations should be reviewed for appropriate corrective action.

The response directed by this letter and the accompanying Notice is not subject to clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL96-511.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

8704290219 870420
